## NEW Smart Lock

Available April 2018

### DETAILS

#### Z-Wave Connectivity

Z-Wave is a low energy technology that allows devices to talk to each other through the Bridge (Camera). The Bridge is connected to your home's WiFi and is required to use the Smartphone app to unlock the smart lock remotely.

#### Ability to Integrate to: Amazon Alexa

\*Voice activation is available through Amazon Alexa within the home. Alexa will not unlock the Smart Lock.

- What version of Android and iPhones are compatible? iOS with 8.0 above operating version, iPhone, iPad, iPod touch, Android: Jelly Bean(4.1)+
- What are the WiFi requirements? 2.4G Hz WiFi with WEP and WPA/WPA2 security support
- What is the furthest distance the camera/Bridge can be from other devices? over 900 feet
- Can the camera be used outside? Not at this time; however, we are evaluating options to add this feature
- Do you need a user's phone to be on-site to add them to your smart home network? No
- Can you remove a User? Yes
