

Delaney Hardware Expands Portfolio of Premium Entry, Interior and Barndoor Hardware

Unveiling 7 New Trend-Forward Designs and Finishes

ATLANTA (Nov. 10, 2020) – Renowned for premium hardware and exceptional service, Delaney Hardware announced the company is adding seven fashion-forward styles and finishes to its portfolio of luxurious hardware. From contemporary to farmhouse style, Delaney’s new offerings include: new design styles in refined matte black finish and luxurious satin brass finish, a Digital Lock with a Logan Lever, Contemporary Square Pocket Locks, a sleek Barndoor 12” Round Pull combo, an Interconnected Deadbolt with a Vida Lever, and a Tulina Lever with Square Backplate.

“We are excited to add these great product additions to our comprehensive hardware offering,” explains Kathryn Towns, vice president of marketing for Delaney Hardware. “At Delaney, our goal is to help homeowners transform a house into a one-of-a-kind dream home with our premium quality and distinctive designs. We are adding some trend-forward styles and finishes such as designs in the most-requested matte black and trend-setting satin brass hardware as well as new barndoor accessories, pocket door hardware and digital lock options.”

Towns adds, “This is not the end of our new additions for 2020. We’ll announce even more new products before year-end.”

The new Delaney Hardware products include:

- The **LP250 Digital Lock with Logan Lever** combines security, convenience and style. It’s ideal for a variety of residential applications -- wine rooms, sheds, back doors, and any entry that benefits from secure access. The attractive digital lock is easy to install, as it operates on 4 AA batteries and does not require hard wiring. It holds up to six user codes, can be accessed with a key, and includes an LED illuminated keypad for nighttime visibility. Choose from three finishes: satin nickel, Tuscany bronze and black.
- **Contemporary Square Pocket Locks** are timeless and versatile, with rounded corners and one-of-a-kind features such as keyed entry and color-coded privacy function indicators. The crisp, clean appearance adds style to this functional lock that’s simple to install. Choose from three options: standard passage, one-sided lock for privacy, or keyed entry. Ideal for usage on pocket doors in interior halls, bathrooms and closet applications, it is available in the popular finishes of matte black, satin nickel and chrome.

- New solid-forged brass designs in **Matte Black Finish** exude an aura of timeless tradition that is versatile enough to meld with a variety of themes, whether classic, rustic, farmhouse or modern. The exceptional matte finish uniquely highlights every bevel and curve of Delaney Hardware designs, whether on entry, interior, patio, or barn doors.
- New solid-forged brass designs in **Satin Brass Finish** deliver sophisticated radiance to any room. Brass is back, as designers add a dash of the luxurious champagne-like finish to kitchens, bathrooms, and entry doors. This soft sheen is available for a variety of Delaney products, from entry and barn door handles to crystal knobs and towel bars.
- The new **Barn Door 12" Round Pull with Flush Mount Combo** makes it easy to install a sleek, solid, high-quality barn door handle. There's no need for mortising, and installation requires just two screws. Barn doors are a hot design trend, since they can add both functional space and a design focal point. This attractive pull features a 12-inch round lever on the exterior of the door, with a no-routing flush mount plate on the opposite side. This smooth design comes in brushed steel and black finishes.
- The **Interconnected Deadbolt with Vida Lever** offers a beautiful and easy way to open your doors. The interconnect function enables a user to quickly open both the deadbolt and the lever with one continuous, smooth motion, as pushing down on the lever from the inside automatically unlocks the deadbolt. The Vida design conveys sleek, straight lines, complementing any contemporary or modern setting. Coordinating interior door levers are available in all functions, and the Vida Lever is offered in three popular finishes: satin nickel, chrome and black.
- The **Tulina Square Lever and Black Finish** are new additions to the popular Tulina portfolio. Formerly available only with a graceful round backplate, the Tulina lever's straight, smooth lines are accentuated by the new square backplate. The right angles accommodate a wide range of interior design styles. The new square lever is available in three finishes – black, polished chrome and satin nickel, while the traditional Tulina Lever has four options, including the new black finish and Tuscany bronze.

Delaney products are available nationwide at lumberyards, building supply distributors and hardware dealers, as well as on [Build.com](https://www.Build.com), [Wayfair.com](https://www.Wayfair.com), [Houzz.com](https://www.Houzz.com) and [Amazon.com](https://www.Amazon.com).
